Advanced machine vision made easy

Vision Made Simple

The power of AI without the complexity

IN-SIGHT 2800 SERIES

IN-SIGHT 2800 SERIES

Automate error detection in minutes—
no experience needed

The In-Sight® 2800 series vision system combines artificial intelligence (AI) technology with traditional rule-based vision tools to solve a wide range of inspection applications. From presence/absence detection to sortation and character reading, In-Sight 2800 provides an easy to deploy solution for error-proofing tasks. Designed for factory automation, In-Sight 2800 enables manufacturers of all size to:

- Increase product quality
- Maximize operational efficiency
- Streamline integration

Increase product quality

Catch subtle defects, classify parts with variation, and decipher complex text with highly accurate, AI-based error detection and character reading.

Comprehensive vision toolset addresses tasks of varying complexity

Integrating AI and rule-based tools in a single vision system, the In-Sight 2800 series solves a variety of error-proofing applications. Use the tools individually for simple jobs or chain them together to solve more complex logic sequences.

AI tools

The In-Sight 2800 is embedded with powerful edge learning tools that leverage AI technology to process images on device, or “at the edge” of where the data originates, delivering accurate results in real time.

ViDi EL Classify

Go beyond the standard OK/NG output with ViDi™ EL Classify. The tool

identifies and sorts parts based on multiple features or characteristics. This enables users to classify defects into different categories and correctly identify parts with variation, allowing them to automate a wider range of tasks.

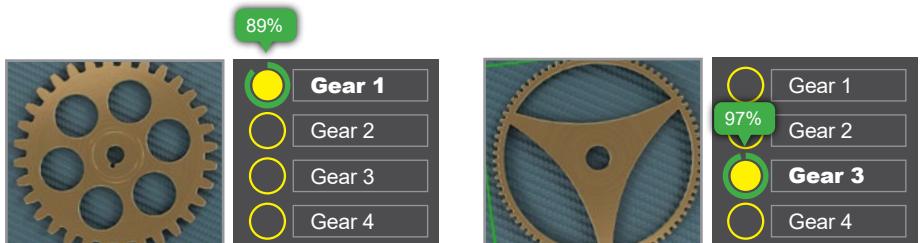

Training

ViDi EL Classify can be trained in minutes, using as few as five to ten images per class.

Confidence score

Get real-time, visual feedback on the accuracy of your results. The confidence score confirms whether the AI model correctly predicted the application output, leading to less manual intervention and more reliable inspections.

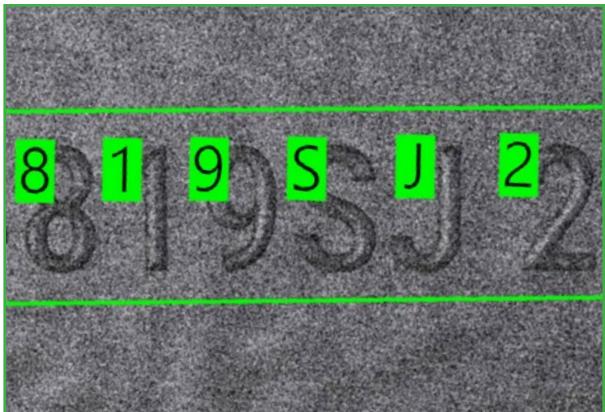

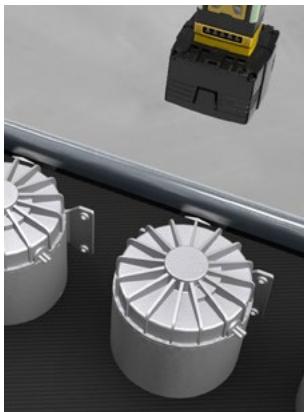

ViDi EL Read

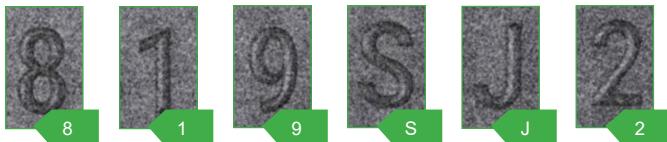

Read characters on reflective, low-contrast, and non-flat surfaces with ease.

The ViDi EL Read tool deciphers a range of text, including multi-line text, using advanced optical character recognition (OCR). With minimal training required, the tool simplifies job setup and delivers fast, accurate character reading.

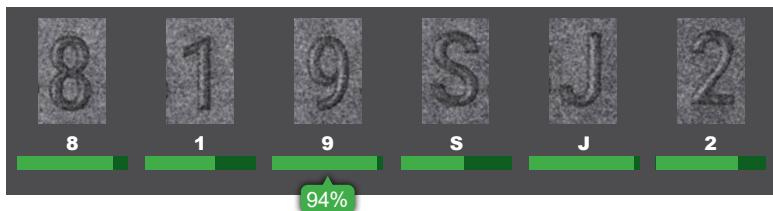

Training

Using a few example images of the relevant characters, ViDi EL Read can be setup and deployed in minutes.

Confidence score

Assess the accuracy of your results with the confidence score displayed below each of the trained characters.

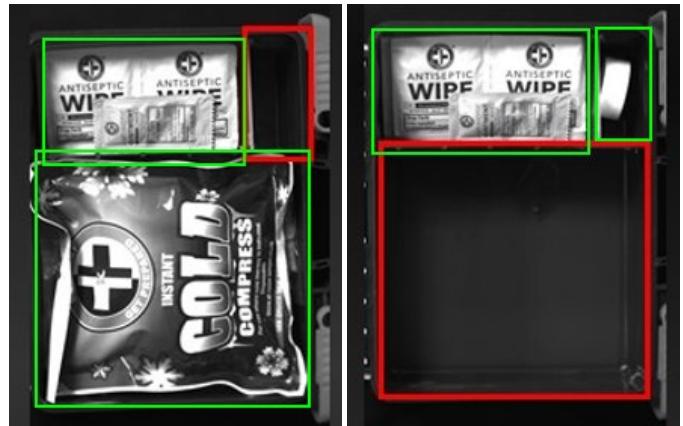

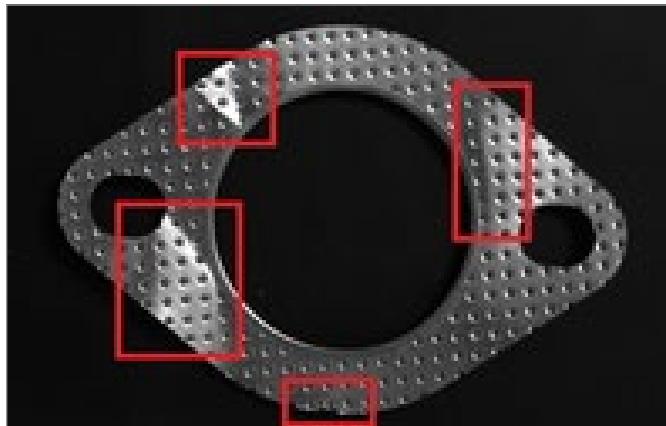

Rule-based vision tools

The In-Sight 2800 is also equipped with an extensive library of industry-proven traditional vision tools and algorithms including: Measure Distance, Pixel Count, Count Patterns, Math and Logic Tools, and much more.

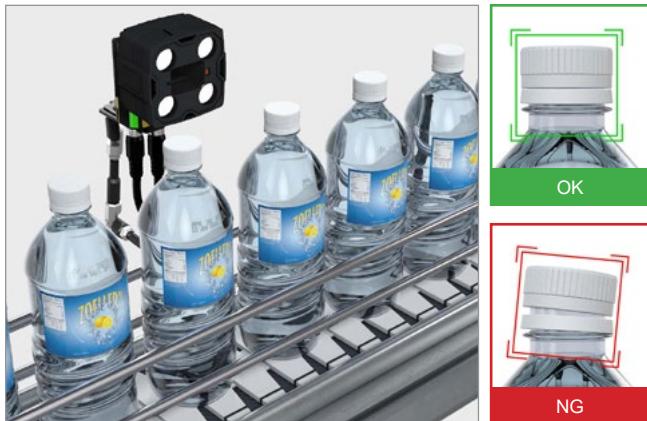

Multiple regions of interest functionality

Set up multiple regions of interest (ROIs) to inspect different sections of your image with a single trigger.

Classification application examples

Inspect cap seating

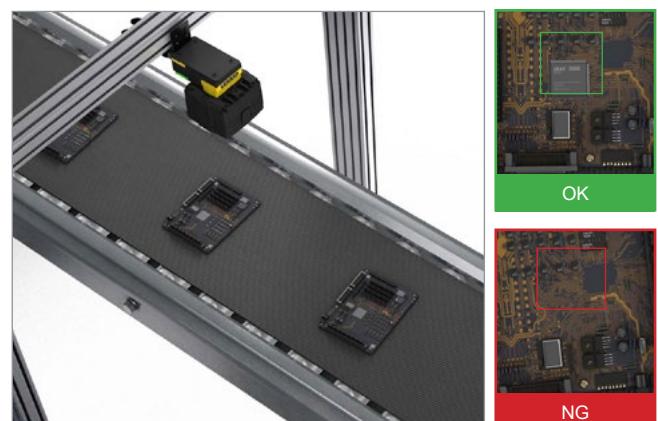

Detect presence/absence of serving scoops

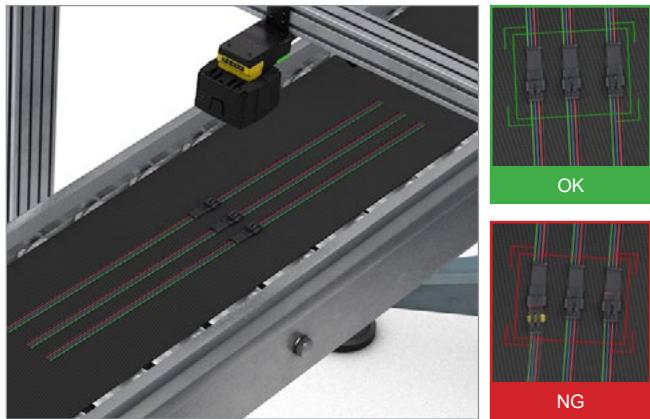

Check assembly of packaged products

Inspect PCB components

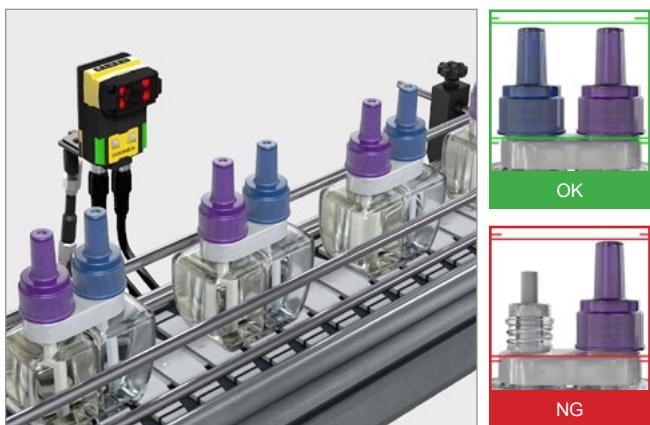

Verify proper insertion of components

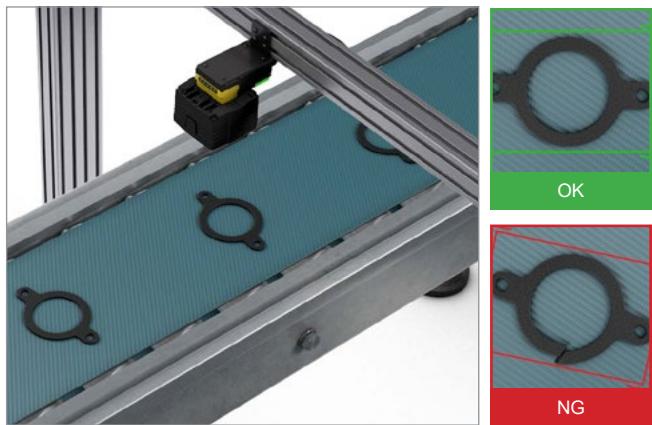

Detect and classify defects on product labels

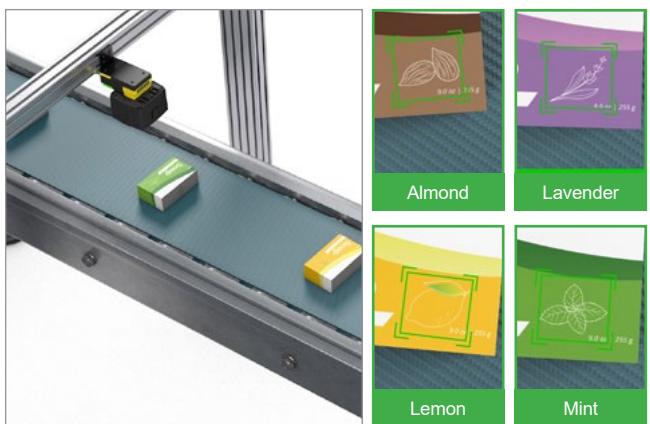

Detect presence/absence of sealing caps

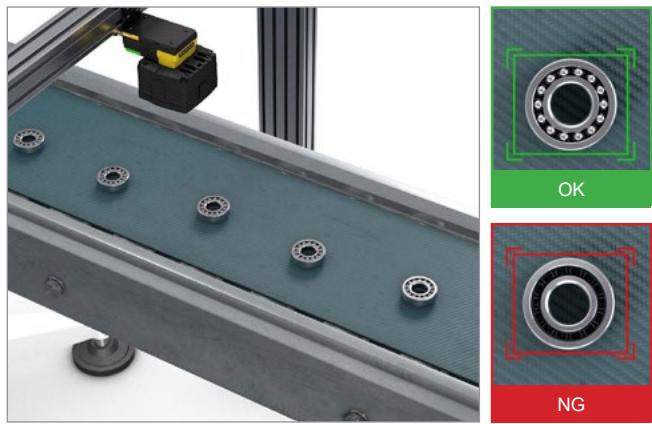

Inspect for mechanical defects

Classify scents or flavoring on packaging

Check for missing components in final assembly

OCR application examples

Read text on curved surfaces

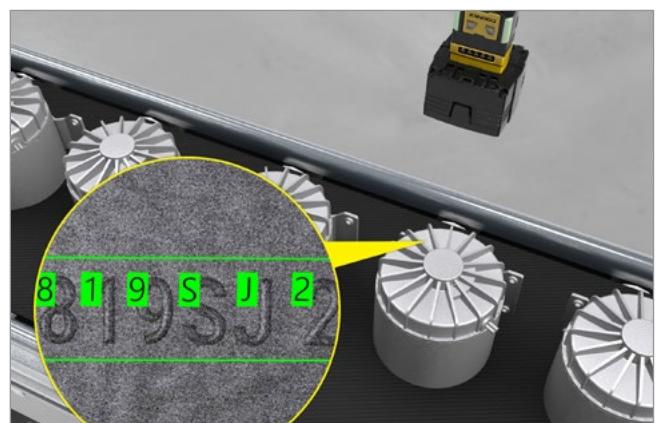

Read text on printed labels

Read dates and lot codes on reflective surfaces

Decipher characters against low-contrast backgrounds

Read multiple lines of text at the same time

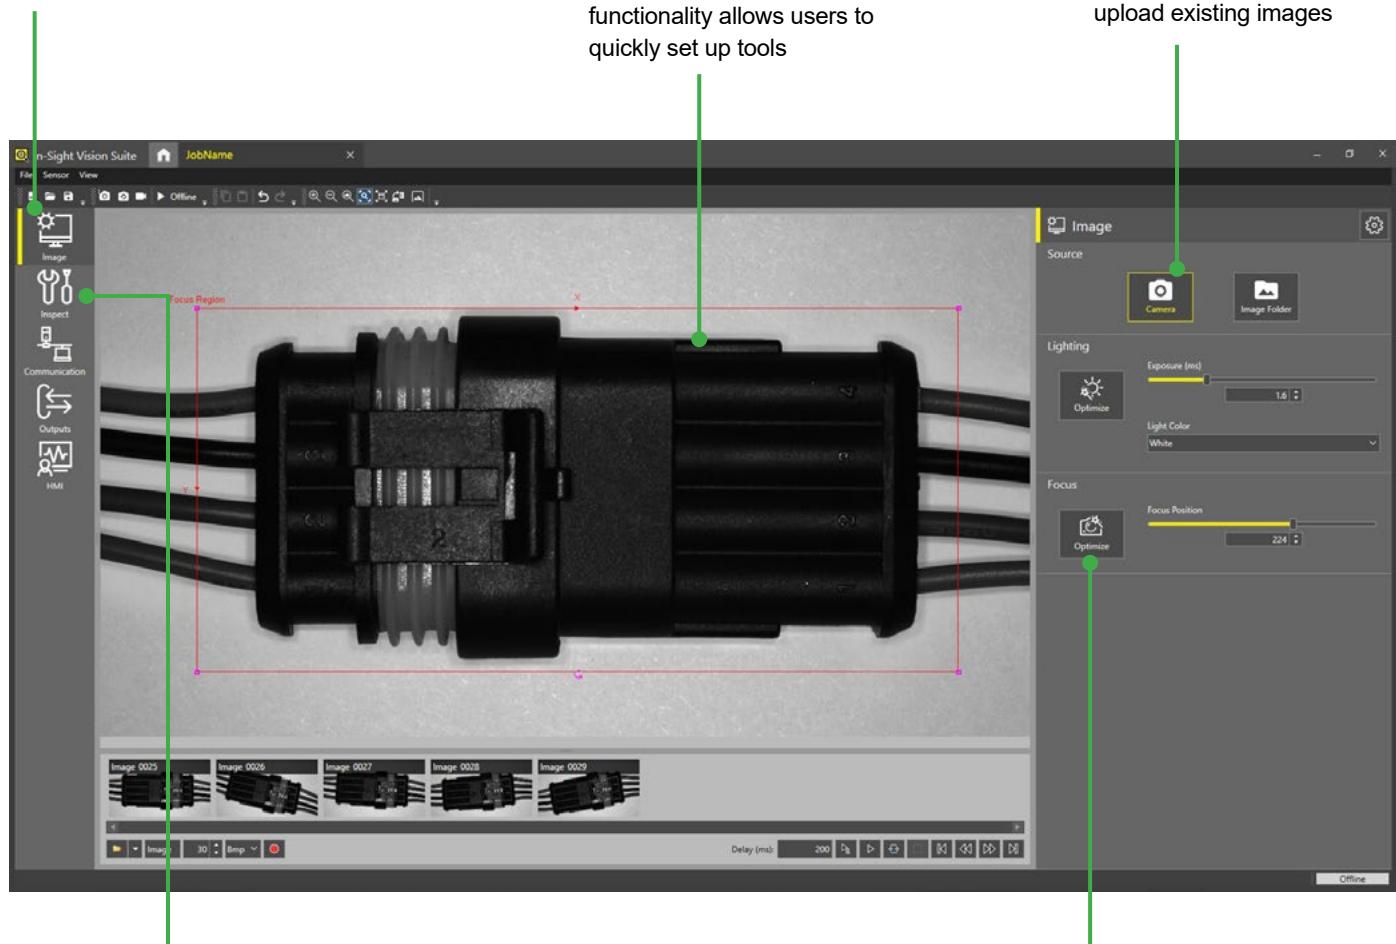

Common software platform offers flexible development options

In-Sight Vision Suite software is common across all In-Sight products and includes two programming environments — EasyBuilder® and spreadsheet — which allows you to seamlessly scale your solution as your business needs evolve.

EasyBuilder development environment simplifies setup and delivers rapid turnaround

With its point-and-click programming, the EasyBuilder interface within In-Sight Vision Suite is ideal for developing jobs, from simple to complex. The intuitive process guides developers step-by-step through setup—from image capture to the final result and beyond—allowing both new and experienced users to configure vision applications.

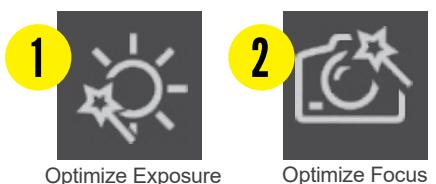

Easy step-by-step application setup

Comprehensive set of traditional rule-based vision tools and innovative edge learning tools

Image-centric **point-and-click** functionality allows users to quickly set up tools

Capture images live or upload existing images

Fast, **2-click** image formation

Spreadsheet guides users through advanced applications*

The In-Sight spreadsheet interface allows you to quickly set up and run jobs without the need for programming. This robust development environment provides you with the flexibility to make critical adjustments to job parameters, so you can adapt your applications as your requirements change.

The screenshot displays the In-Sight Vision Suite interface. On the left is a camera view showing a blueberry juice bottle with a label that reads "MOVE FAST", "Blueberry ENERGY WATER", "blueberry", "Calories Sugar Free", and "DATE: 02-2020 LOT: 8744TC". A red box highlights the blueberry icon on the label. To the right of the camera view is a spreadsheet window with several tabs: "Image", "PatMax", "Patterns", "VIDI EL Classify", and "VIDI EL". The "VIDI EL Classify" tab is active, showing a table of results:

	Health	Num Class/Index	Label	Num Images	Score	
VIDiELClassify	99.882	5.000	0.000 Blueberry	8.000	98.949	<input checked="" type="checkbox"/> Collect Samples
			1.000 Damaged	5.000	0.373	
			2.000 Lemon	6.000	0.369	
			3.000 Strawberry	6.000	0.309	
			4.000 Missing	6.000	0.000	
			Unlabeled	0.000		

Below the spreadsheet is a "Functions" palette with a tree view of available tools, including VIDI EL, Vision Tools, Geometry, Graphics, Mathematics, Test, Coordinate Transforms, Input/Output, Clouded Data Storage, Vision Data Access, Focus, White Balance, Structures, and Scripting. The "VIDI EL" node is expanded.

Easily review and recall files with image playback

Full I/O and communications function set streamlines factory integration

Full suite of AI- and rule-based vision tools

*Spreadsheet only available on In-Sight 2802 models.

Powerful **spreadsheet** interface allows users to solve complex applications

Web-based HMI offers real-time application testing and optimization

The In-Sight 2800 series provides access to a web-based human-machine interface (HMI) that enables runtime visualization. From the HMI, users can view inspection results and modify setup parameters to optimize their application.

EasyView displays tags from jobs in a simplified format

Online/Offline status indicator

Control panel allows users to manage the device through the web HMI

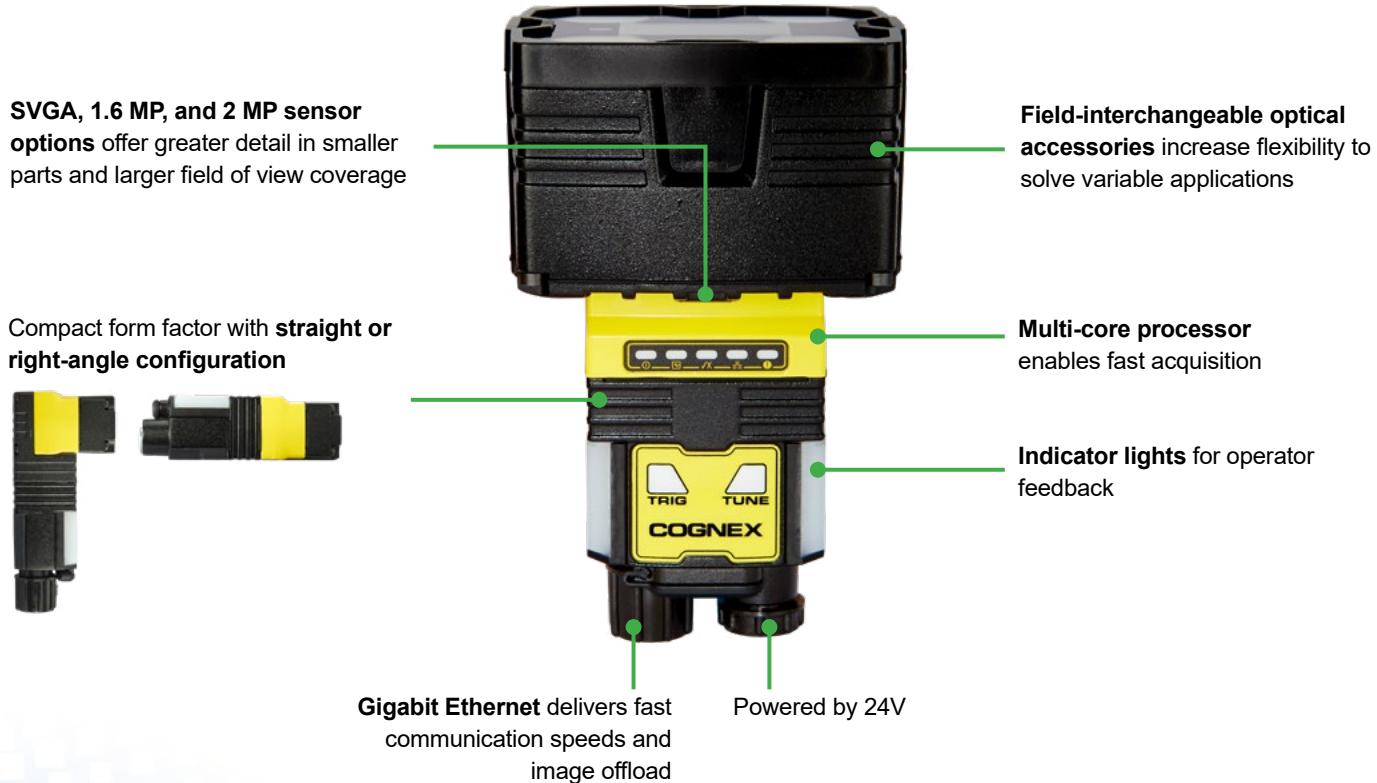

Overlay graphics clearly display application output

CustomView shows advanced settings from the spreadsheet*

*CustomView only available on In-Sight 2802 models while using the spreadsheet interface.

Full-featured vision system solves broad range of applications

The In-Sight 2800 is engineered with the entire suite of powerful Cognex vision tools and convenient features to automate applications easily and reliably.

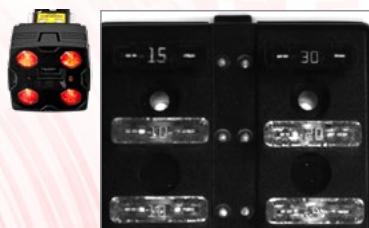

Powerful and flexible integrated lighting

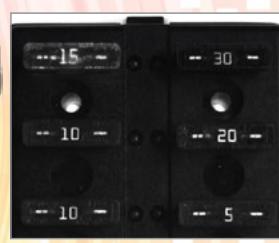

Multi-color (RGBW) lighting option allows you to optimize image contrast for the application, regardless of operating conditions. Simply click a button in In-Sight Vision Suite to change the light color.

Actual part

Red light:
Numbers are unclear

Blue light:
Numbers are clear

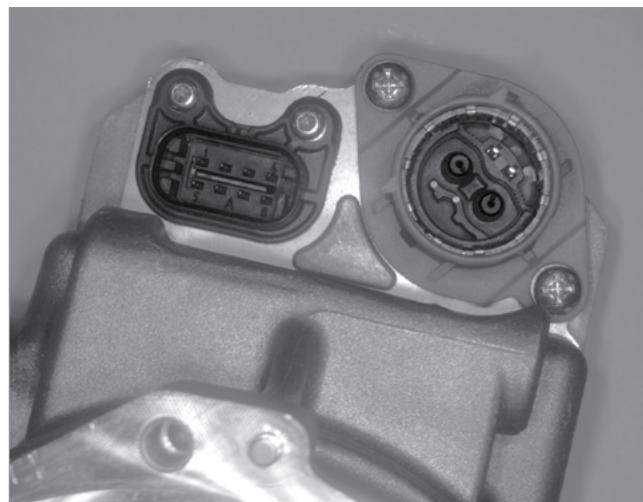

Powerful imaging technology delivers improved inspection accuracy

High Dynamic Range (HDR) Technology uses advanced image sensor technology that is 16X more detailed than conventional sensors. This drastically increases image quality and contrast, resulting in more accurate inspections and detection of even the most subtle defects.

Part inspection

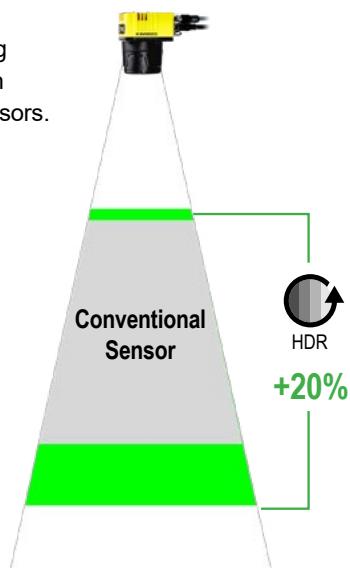

Without HDR: Inset features are unclear.

With HDR: All features are visible.

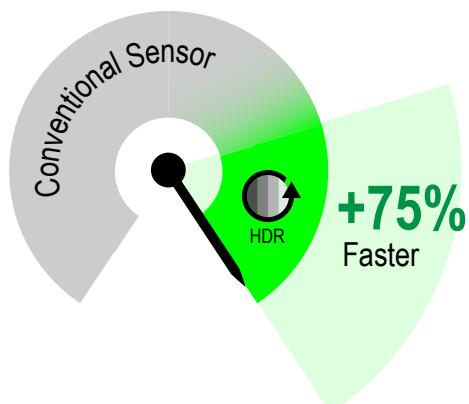

Greater depth-of-field

HDR reduces over- and under-exposure, providing greater depth-of-field than conventional imaging sensors.

Faster line speeds

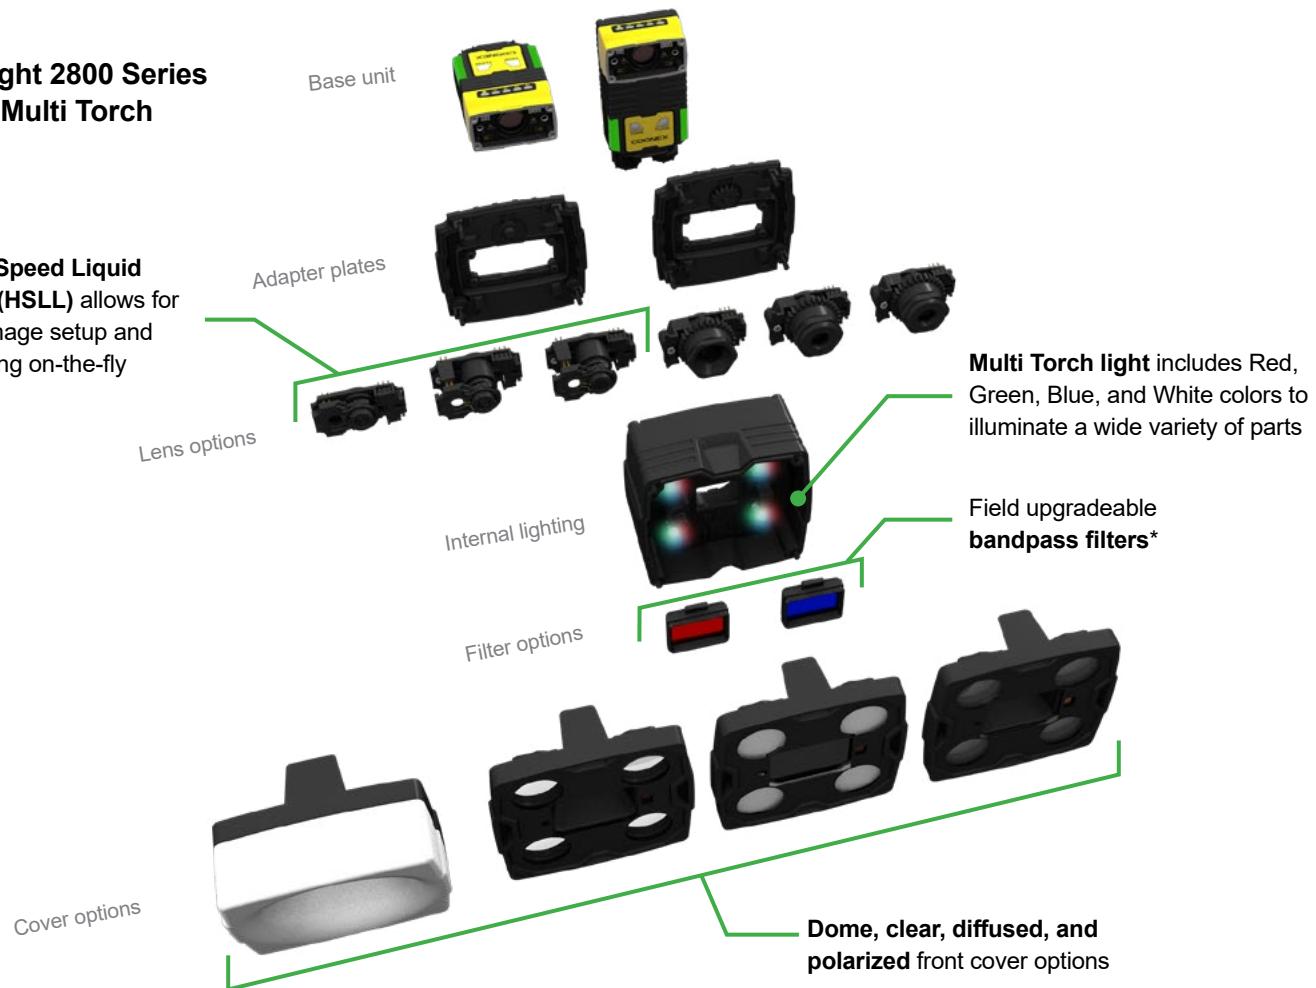

HDR reduces exposure times, enabling you to accommodate faster line speeds.

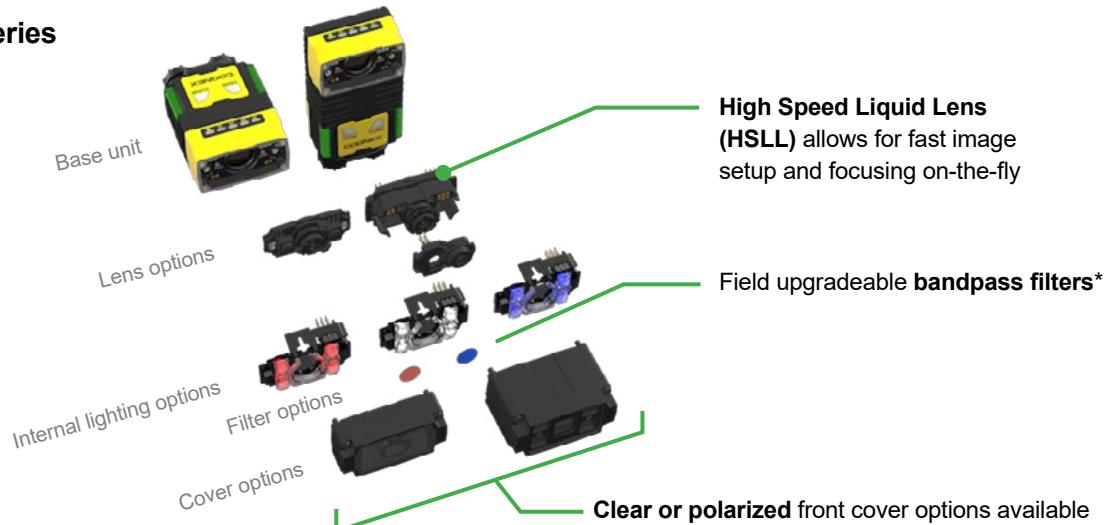

Modular, scalable architecture for current and future needs

The In-Sight 2800 series offers a wide variety of accessories and field-changeable components. This flexibility enables manufacturers to quickly adapt to new parts and keep up with changing demands, such as part changes, faster line speeds, and higher quality standards.

In-Sight 2800 Series with Multi Torch

IN-SIGHT 2800 SERIES SPECIFICATIONS

	In-Sight 2800	In-Sight 2801	In-Sight 2802
Image Sensor		1 /2.8" CMOS monochrome and color	
Image Sensor Properties		6.17 mm diagonal, 2.8 μ m square pixels	
Image Resolution Options	SVGA ¹ (720x540)	1.6 MP (1440x1080)	2 MP (1920x1080)
Electronic Shutter Speed		Min. exposure: 29 μ s Max. exposure: Up to 10 ms (internal illumination) / Up to 200 ms (external illumination)	
Acquisition		Up to 45 Hz	
Lens Options	Multi Torch: 8 mm, 12 mm, 16 mm (High Speed Liquid Lens or manual focus lens) Mini: 6.2 mm or 16 mm High Speed Liquid Lens		Multi Torch: 12 mm, 16 mm (High Speed Liquid Lens or manual focus lens)
Discrete Inputs		2 opto-isolated	
Discrete Outputs		2 opto-isolated	
Other I/O Points		2 user configurable as inputs or outputs	
Status Outputs		5 status LEDs, audible beeper	
Lighting	Multi Torch: High-Powered Multi-Color 4 LED ring light (red, green, blue, white) Mini: 4 LED small form factor light for 6.2mm lens (red, blue, white, IR options) Mini HPIL: 4 LED small form factor high-powered light for 16 mm lens (red, white options) HPIA: Polarized wide-angle white light for 6.2 and 16 mm lens		Multi Torch: High-Powered Multi-Color 4 LED ring light (red, green, blue, white)
Communications		Ethernet interface	
Protocols		TCP/IP, PROFINET, EtherNet/IP™, SLMP, OPC-UA, FTP	
Power		24V +/- 10%	
Power Consumption		\leq 7.5W	
Materials		ABS, acrylic, aluminum alloy, NBR, PC, PET, PMMA, silicone, silicone rubber, stainless steel, TVP, zinc alloy	
Weight		6.2 mm: 141 g; 16 mm: 169 g; Multi Torch: 290 g; Right angle configuration adds 50 g	
Operating Temperature		0–40 °C (32–104 °F)	
Storage Temperature		-10–60 °C (14–140 °F)	
Operating and Storage Humidity		<95% non-condensing	
Protection		IP67	
RoHS Certified		Yes	
Approvals		EU CE, US FCC, TUV CB NRTL IEC 61010	
Software		In-Sight Vision Suite	
In-Sight EasyBuilder access	✓	✓	✓
In-Sight spreadsheet access			✓

¹ SVGA options are monochrome only.

	CCB-PWRIO-15R	15M	

MOUNTING BRACKETS

	Product ID	Description
	DM100-UBRK-000	Universal mounting bracket
	DM100-PIVOTM-01	Pivot mounting bracket
	280-BKT-ADAPT	Flat surface mounting plate adapter for Multi Torch configuration

ETHERNET CABLES

	Product ID	Length	Description
	CCB-84901-2001-02	2M	X-coded M12-8 to RJ-45, straight
	CCB-84901-2001-05	5M	
	CCB-84901-2001-10	10M	
	CCB-84901-2001-15	15M	
	CCB-84901-2001-30	30M	
	CCB-84901-2002-02	2M	
	CCB-84901-2002-05	5M	X-coded M12-8 to RJ-45, right-angled
	CCB-84901-2002-10	10M	
	CCB-84901-2RBT-02	2M	Robotic X-coded M12-8 to RJ-45, straight
	CCB-84901-2RBT-05	5M	
	CCB-84901-2RBT-10	10M	

Optional

MULTI TORCH BANDPASS FILTERS

	Product ID	Description
	280-TORCH-BP450	Blue bandpass filter (450 nm)
	280-TORCH-BP635	Red bandpass filter (635 nm)

MINI BANDPASS FILTERS

	Product ID	Description
	DM150-BP470	Blue bandpass filter (6.2 mm lens only)
	DM150-BP635	Red bandpass filter (6.2 mm lens only)

MULTI TORCH FRONT COVERS*

	Product ID	Description
	280-TORCH-COVPOL	Multi Torch cross polarized cover
	280-TORCH-COVCLR	Multi Torch clear cover
	280-TORCH-COVDIF	Multi Torch diffused cover
	280-TORCH-DOME	Multi Torch dome attachment

MINI FRONT COVERS*

	Product ID	Description
	DM280-CVR-62	Mini front cover (6.2 mm lens)—clear
	DM280-LENS-62CVR-F	Mini front cover (6.2 mm lens)—polarized
	DM260-LENS-16CVR	Mini HPIL front cover (16 mm lens)—clear
	DM260-LENS-16CVR-P	Mini HPIL front cover (16 mm lens)—half polarized
	DM260-LENS-16CVR-F	Mini HPIL front cover (16 mm lens)—fully polarized

C-MOUNT

	Product ID	Description
	DM280-CMNT-00	C-mount adapter
	DM280-CMNT-CVR	C-mount cover

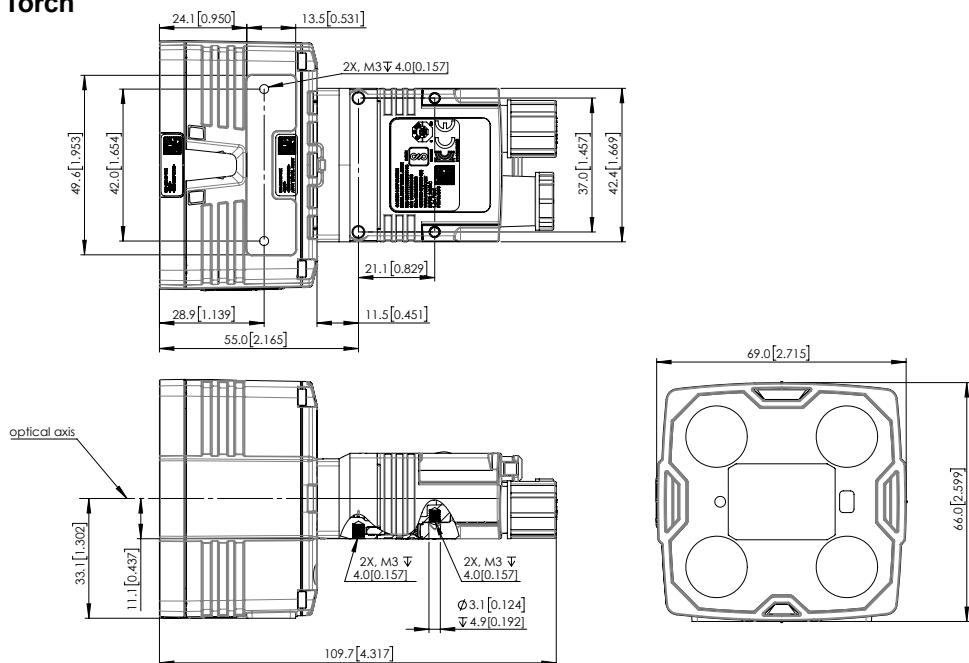

*In-Sight 2800 comes with one front cover. Additional options or spare covers listed.
